ACADEMIC BACKGROUND

[ICAI](#) (Madrid, Spain) - **Dual MEng** in [Industrial Engineering & Intelligent Industry](#). Sep. 2026 - Jun. 2028
[CentraleSupélec](#) (Paris, France) - **MEng** in [General Engineering](#). Sep. 2024 - Jun. 2026
Grande École within Paris-Saclay University, ranked 1st in France and 13th worldwide by [Shanghai Ranking](#).
Relevant coursework: Modeling, Control, Optimization, Quantum Physics and Applied Finance. /20
[ICAI](#) (Madrid, Spain) - **BEng** in [Industrial Technologies](#). Sep. 2022 - Jun. 2026
Class Delegate. Honors in Thermodynamics. /10

PROFESSIONAL EXPERIENCE

[Acerinox](#) (Algeciras, Spain) - *Data Science Intern* in the *Digitalization* department. Jul. 2026 - Aug. 2026
Developed predictive-maintenance models for machinery wear using LoRA-fine-tuned TSFMs; built operator-facing production dashboards, calibrated industrial sensors, and supported data-driven material-defect detection.

EXTRACURRICULAR ACTIVITIES

Junior Enterprise Comillas (Madrid, Spain) - *President* and *Co-Founder*. Feb. 2025 - Present
Built JECo from the ground up as a university-wide, multidisciplinary organization, establishing its structure, operations, legal foundation, and project pipeline. Currently expanding client base and campus presence.
Bureau de l'International (Paris, France) - *Secretary-General*. Jan. 2025 - Mar. 2026
Coordinated a 34-member team supporting 300+ international students. Organized two ~€10k integration weeks, managed logistics and transport, developed partnerships with McKinsey Casablanca and Société Générale, simplified digital payment tracking and launched a staff-scheduling system later continued by the next team.
[CheerUp!](#) at [Institut Gustave-Roussy](#) (Paris, France) - *Projects and Events division*. Oct. 2024 - Jan. 2026
France's #1 student cancer-support network; record fundraising year, outings and visits for pediatric patients.
[Perunidad](#) (Paris, France) - *Events division* and *Project Lead* at **NAFE** (Huanchaco, Perú). Oct. 2024 - Dec. 2025
Led a 4-person team on a 6-week project building two classrooms, repairing water infrastructure, and running workshops for 50 children; managed a €10k budget and supported year-round fundraising. See more [here](#).

PROJECTS & INITIATIVES

Bachelor's Thesis in collaboration with [L2S](#) (Lab). **Mixed Traffic Optimization via RL**. Feb. 2026 - Aug. 2026
Trained an RL model that improved existing traffic-control methods by anticipating conditions beyond the car ahead, cutting speed variation by 76% and fuel use/CO₂ emissions by 54% versus simulated human-driven traffic.
Research Project around [Karabarbounis and Neiman \(2013\)](#). **Labor Share Decline Study**. Jan. 2026
Replicated the original result in Python and stress-tested it across updated data, periods and regions.
Enterprise Project for [Agence du Don en Nature](#) (NGO). **AI-Enhanced Product Retrieval**. Feb. 2025 - Jun. 2025
Built an n8n agentic pipeline (early adopter) for automated product categorization, later adopted internally.
Course Project. **Cryptocurrency Portfolio Optimization**. Jun. 2025

CERTIFICATIONS & PROGRAMS

MITx 15.455x - Mathematical Methods for Quantitative Finance. Mar. 2026 - May. 2026
Bloomberg for Education - BFF, BMC and BSA. Mar. 2026 - Apr. 2026
Stanford's CS234 - Reinforcement Learning. Feb. 2026 - Mar. 2026
McKinsey & Company - Forward Program. Oct. 2025 - Dec. 2025
Algeciras City Council - Award for Academic Excellence. Jun. 2022

LANGUAGES & TOOLBOX

Spanish Native. **English** Cambridge Advanced C1. **French** Advanced C1.
Engineering Python, C, SQL, VBA, MATLAB, R, LATEX, n8n, AutoCAD, CATIA, Fusion 360, nTop, COMSOL.
